

Troop 151 Photo Album Instructions

Go to www.shutterfly.com or click the "Photos" link on the Troop website home page.

- Sign in with the User Name: Scoutmoms9151@gmail.com
- Password: Hugo-Troop151

This is the same log in information to the Gmail account if you want to check for a confirmation email.

When you upload photos into the account, you can create a new album. Please label the album with some descriptor of when the photo was taken (example: Tomahawk 2012). If possible, it's nice to label who is in the photo and any story you can share.

If you are uploading photos, you can add your photos to any appropriate, already made album. This will make it easier for everyone to use your photos and put them in context.

If you want prints made at a local Target or Walgreens, select 4 x 6 glossy, 5 x 7 glossy or 8 x 10 glossy (never matte finish). Your photos, when ordered, will be available at your local store in a few hours. This is the best way to order them; you won't be putting your payment information into a shared account.

It is possible to order and have items shipped to your home. Be VERY careful to remove your personal payment information right after you order from this account. You will need to specify your home as the shipping location.
